IMMUNIZATION REQUIREMENTS

The UC Immunization Policy requires Incoming Students to obtain the vaccinations and screening recommended for colleges and universities by the California Department of Public Health (CDPH) for those diseases that can be passed on to others by respiratory transmission. All Incoming Students must also complete an online screening questionnaire for tuberculosis (TB), based upon CDPH guidance. Incoming Students who are assessed as potentially at higher risk for TB infection, based on their responses to the screening questionnaire, will be required to undergo further evaluation and testing by their medical provider.

DUE NOVEMBER 1, 2018: All incoming UC students are REQUIRED to obtain these vaccines and undergo Tuberculosis risk screening.

**Screening Questionnaire for Tuberculosis**

Log in to the Ashe Patient Portal, click “Complete My Immunization Requirements.” Click UPDATE next to TB screening and answer the questions.

All incoming students are required to complete the TB screening questionnaire on the Ashe Patient Portal. Students who have any “yes” answers on the questionnaire are at higher risk for TB infection and are required to submit documentation of either skin or blood testing for TB, done within 6 months of entry into UCLA. Those with a previous positive TB test are required to submit documentation of a chest x-ray done within 6 months of entry into UCLA.
